12 pnts. Regular. Expletus is Latin for 'perfect'. Expletus Sans is a display face that adds style and class to your webpage, without drawing the attention away too much. The elegant way the gaps are shaped create a welcome tension between the black and the whitespace and give it an open and reliable look. Expletus Sans was designed with love and dedication, perfected in every detail. The four weights give you plenty of choice and allow you to use it extensively. Next to web use, Expletus Sans also adds that special 'touch' to identity work and other printed matter. If you have any problems with Expletus Sans, or you would like to use it for a language it doesn't support, please contact me at [jasper@designtown.nl](mailto:jasper@designtown.nl)
